

Mr. Tom Wilson

is held any where near here. He is quite interested in the baseball, and I think would like to help get it straightened out. His name is Atty. Robert Hartgrove, and he is the deputy Attourney General of New Jersey. I guess you have seen where the man I tried to get the leagues to accept for Commiesioner last year, has been appoicated on the Presidents war cabinet. Isnt it a shame for we poor Negroes to pass up opportunities like these to get well organized just because the booking agents dont want us organized.

At our last meeting the members all decided to get you to contact the western league and discuss the possibility of having one league. Did you ever do this. If not do you plan to?

In view of all the unpleasant happenings last year have you made any plans to correct any of these things? Is there any program you have in mind that you want my cooperation on?

I will be glad to hear from you again. I hope you will answer all my questions.

I hope you are enjoying good health.

Very Truly Yours
